GUEST PRESENTERS:

PEGGY ANDERSON, Alabama Department of Rehabilitation Services
Employer Development Coordinator

CRAIG RESPESS, North Carolina Division of Services for the Blind
Employment Services Director

Peggy and Craig will guide us through marketing principles to use when working with "Dual Customers"- the client and the employer. Using hands-on activities they will assist you as a Rehabilitation Professional, in developing language and strategies designed to increase your confidence and ability to meet with employers successfully.

Both Peggy and Craig have worked extensively within their VR agencies to develop staff employment and placement skills. They will also present on the CSAVR National Employment Team or NET, which is creating a coordinated approach in serving business customers through a national VR Team.

This translates to more OPPORTUNITIES FOR YOUR B/VI CLIENTS.
